

Sampling Theory in Signal and Image Processing
An International Journal

Announcing STSIP Special Issues
CALL FOR PAPERS

1. Special STSIP Issue(s) for SAMPTA '03 Papers

As we head to our fifth SAMPTA '03 workshop in Strobl, Austria, I would like to encourage all participants to prepare their papers for submission to our STSIP journal to appear in the third issue of the second volume and other issues to follow.

2. Special STSIP Issue(s) Dedicated to the 75th Birthday of Professor Paul L. Butzer

You may also welcome the decision to dedicate the first issue(s) of the third volume (Jan 2004) to our wonderful friend and distinguished leader in the research of Shannon Sampling (and many other mathematics areas), Professor Paul L. Butzer, on the occasion of his 75th birthday. In honor of this celebration, friends, colleagues and the many students of Professor Butzer may want to contribute to this special issue(s).

You may bring your paper with you to the SAMPTA03 Workshop, so that we may hand them to respective referees there for a speedy process.

Note: All Instructions for Typesetting Manuscripts are found on the Journal website, <http://www.jerria.com>, or at the end of the journal.
